Teledyne Marine Unmanned Vehicles

OceanServer

- L3 Ocean Server develops and manufactures autonomous, lightweight unmanned undersea vehicles (UUVs).
- L3 Technologies (Ocean Server's parent company) is a leading provider of a broad range of communication and electronic systems and products used on military, homeland security and commercial platforms.
- The next generation Iver4 provides multi-mission flexibility with low logistics operation and comes equipped with industry leading tracking and safety communications, high accuracy navigation, 200m bottom-lock DVL, low drag side scan and bathymetry transducers.
