

CC-CREW: Research Experiences at WHOI

A Paid Summer Research Experience for Cape Cod Community College Students

June 8th – August 7th, 2026

Applications due: March 27, 2026

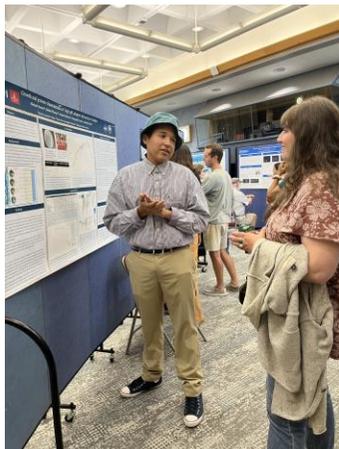

Location: Woods Hole, MA.

Program: Full time (40 hours per week). Participate in ocean science and engineering research, attend lectures and workshops, take local field trips, build STEM identity and network, and receive mentoring on the transition from Community College to a four-year College.

Read more: <https://www2.whoi.edu/staff/jhuber/cc-crew/>

Qualifications:

- When applying, you must have graduated from High School and be enrolled at Cape Cod Community College with the intention of transferring to a four-year College majoring in a science or engineering discipline
- Be excited about STEM and want to learn more about research and STEM careers
- Have completed two Community College STEM courses by start of program

Online Application:

- <https://whoiforms.whoi.edu/cc-crew-program-application/>
- Provide contact information and answer questions about favorite science courses, educational and career goals
- A copy of your (un)official college transcript
- At least one letter of reference from a Community College instructor
